## Listed securities

You are able to invest in securities listed on the ASX. Selected listed investment companies and listed property trusts are available for investment.

If you are an Investor of the Investor Directed Portfolio Service (IDPS) you can invest in any direct equity or unit trusts listed on the ASX with the exception of unlisted managed funds (mFunds).

For superannuation and pension members, you will have access to the following listed securities:

- shares currently listed in the S&P/ASX300 index
- selected LICs and LITs
- A-REITs listed on the ASX all ordinaries index
- selected hybrids (ie convertible notes and preference shares)
- selected ETFs and ETCs
- selected fixed interest securities (ie corporate bonds and floating rate notes), and
- certain sub-classes of shares, initial public offerings (IPOs), share purchase plans (SPPs) and other securities that satisfy the Trustee's approval criteria.

Securities listed in the S&P/ASX300 are subject to change, impacting the ability to invest in securities that no longer fall in the S&P/ASX300.

The trustee may periodically add or remove listed securities available to superannuation and pension members without warning. We recommend you obtain the latest version of this document prior to making an investment decision.

When purchasing listed securities, additional costs will be incurred. These costs, which include brokerage fees, will be directly debited from your account. If using a third party broker, the cost per transaction varies between brokers and is subject to change.

Please refer to the **MyNorth Super and Pension PDS – Part A** or **MyNorth Investment IDPS Guide** for further details.

Listed securities can be held alongside a MyNorth Guaranteed investment. However, they are not currently available on accounts with a Guarantee that commenced prior to 28 November 2020.

# Standard Risk Measure

## About the Standard Risk Measure

The Standard Risk Measure (SRM) is a common risk descriptor used by superannuation funds.

It is based on guidance from the Australian Prudential Regulation Authority (APRA) to allow investors to compare managed funds that are expected to deliver a similar number of negative annual returns over any 20-year period.

We have introduced the SRM in accordance with the recommendations from the Financial Services Council (FSC) and Association of Superannuation Funds of Australia (ASFA).

## SRM descriptors

Each managed fund listed in this document has been assigned a SRM.

The table below sets out the SRM labels used for each managed fund based on the estimated number of negative annual returns that a managed fund may experience over any 20-year period.

Risk band	Risk label	Estimated number of negative annual returns over any 20 year period
1	Very low	Less than 0.5
2	Low	0.5 to less than 1
3	Low to medium	1 to less than 2
4	Medium	2 to less than 3
5	Medium to high	3 to less than 4
6	High	4 to less than 6
7	Very high	6 or greater

For example, managed funds with a risk band of 5 have a medium to high risk label and may experience between 3 to less than 4 years of negative annual returns over any 20-year period.

## Limitations

The SRM is not a complete assessment of all forms of investment risk and does not replace the need for financial advice when constructing a managed fund portfolio. For instance, it does not detail what the size of a negative return could be or the potential for a positive return to be less than an investor may require to meet their objectives. Further, it does not take into account the impact of administration fees and tax on the likelihood of a negative return.

The SRM is not a comprehensive account of the risks of investing and investors should consider these risk labels in conjunction with the different risks of investing that apply to their investments. Investors should still ensure they are comfortable with the risks and potential losses associated with their chosen managed fund(s).

## Methodology

The methodology used for calculating the SRM follows the FSC/ASFA recommendations and is in line with market adopted practices. For full details on the methodology, please visit [northonline.com.au](http://northonline.com.au). You can also contact your financial adviser or the North Service Centre on 1800 667 841 for any queries on the methodology.

## Changes to the SRM

For each managed fund, any significant changes to market conditions may alter the SRM from time to time. In addition, any changes to the methodology used (including any regulatory changes) may also alter the SRM results.

We will generally review the SRM assigned to each managed fund annually.

## Differences between each provider's SRM

Investors should be aware that the SRM labels used for each managed fund are based on our assessment and may differ to those assigned by other providers. The differences are generally due to the methodology used in calculating the SRM.
