North Super and Pension

Product disclosure statement update

8 July 2026

This is an update to the **North Super and Pension product disclosure statement (PDS)**, issue number 17, dated 30 September 2025. This update is effective 8 July 2026. You should read this update in conjunction with the North Super and Pension PDS, the supplementary product disclosure statement (SPDS), the additional information booklet (AIB), the North investment options document, any PDS updates and the target market determination (TMD) which are available from **northonline.com.au** or by contacting the North Service Centre on 1800 667 841.

Introducing investment holding limits

Some investment options available through North Super and Pension are subject to investment holding limits set by the Trustee. These guidelines aim to limit the amount, as a percentage of your account value, that you can invest in a particular investment option.
We'll notify you or your financial adviser on a periodic basis (generally quarterly) if your account is exceeding the investment holding limits. You and/or your financial adviser should ensure your account's investment mix remains consistent with your chosen investment strategies and risk tolerance.
Investment holding limits may be applied for risk management, diversification and liquidity, and may change from time to time at our discretion. Details of current holding limits are available in the **North investment options** document.
