This document outlines the investment options available through the iAccess Personal Super and Pension product disclosure statement (PDS) and iAccess Investment investor directed portfolio service (IDPS) guide.

iAccess investment options are split into three broad categories; **Strategic Service, Pathways & Investor Choice**. From time to time, we'll add or remove investment options. We recommend you consult your financial adviser before selecting the specific investment options for your investment strategy. Refer to the applicable product disclosure statement or other disclosure document for an investment option to obtain information about fees and costs for any specific investment option.

For more information on fees and costs please refer to the **iAccess Personal Super and Allocated Pension PDS**, or **iAccess Investment IDPS Guide** as applicable to you.

Please submit all investment instructions through your adviser or North® Online, available via [northonline.com.au/iaccess](http://northonline.com.au/iaccess).

iAccess offers a range of investment options featuring:

- over 330 managed funds
- managed portfolios
- listed securities on the Australian Securities Exchange (ASX)
- exchange traded funds (ETFs), exchange traded commodities (ETCs) and exchange traded bonds (ETBs)
- listed investment companies (LICs) and listed investment trusts (LITs)
- Australian real estate investment trusts (AREITs), and
- term deposits.

From time to time, we'll add or remove investment options. We recommend you consult your financial adviser before selecting the specific investment options for your investment strategy.

## Listed securities

You are able to invest in securities listed on the ASX. Selected listed investment companies and listed property trusts are available for investment.

If you are an Investor of the Investor Directed Portfolio Service (IDPS) you can invest in any direct equity or unit trusts listed on the ASX with the exception of unlisted managed funds (mFunds).

For superannuation and pension members, you will have access to the following listed securities:

- shares currently listed in the S&P/ASX300 index
- selected LICs and LITs
- A-REITs listed on the ASX all ordinaries index
- selected hybrids (ie convertible notes and preference shares)
- selected ETFs and ETCs
- selected fixed interest securities (ie corporate bonds and floating rate notes), and
- certain sub-classes of shares, initial public offerings (IPOs), share purchase plans (SPPs) and other securities that satisfy the Trustee's approval criteria.

Securities listed in the S&P/ASX300 are subject to change, impacting the ability to invest in securities that no longer fall in the S&P/ASX300.

The trustee may periodically add or remove listed securities available to superannuation and pension members without warning. We recommend you obtain the latest version of this document prior to making an investment decision.

When purchasing listed securities, additional costs will be incurred. These costs, which include brokerage fees, will be directly debited from your account. If using a third party broker, the cost per transaction varies between brokers and is subject to change.

Please refer to the **iAccess Personal Super and Pension PDS** and **iAccess Investment IDPS guide** for further details.

## Standard risk measure

The Standard Risk Measure is based on industry guidance to allow investors to compare investment options that are expected to deliver a similar number of negative annual returns over any 20-year period. Negative annual returns may not occur in consecutive years.

Risk band	Risk label	Estimated number of negative annual returns over any 20 year period
1	Very low	Less than 0.5
2	Low	0.5 to less than 1
3	Low to medium	1 to less than 2
4	Medium	2 to less than 3
5	Medium to high	3 to less than 4
6	High	4 to less than 6
7	Very high	6 or greater

The Standard Risk Measure is not a complete assessment of all forms of investment risk. For instance, it does not detail what the size of a negative return could be or the potential for a positive return to be less than an investor may require to meet their objectives. Further, it does not take into account the impact of administration fees and tax on the likelihood of a negative return.

Members should still ensure they are comfortable with the risks and potential losses associated with their chosen investment option(s). Refer to page 17 of the PDS and section 4 of the Additional information booklet for further details about the risks of investing through iAccess Personal Super and Allocated Pension.

Applications for investment in iAccess products will only be accepted via [northonline.com.au/iaccess](http://northonline.com.au/iaccess). Copies of the PDS and IDPS Guides are available on [northonline.com.au/iaccess](http://northonline.com.au/iaccess) or by contacting the North Service Centre on 1800 667 841.

NMMT, NM Super and their associates derive income from issuing interests in the product, full details of which are contained in the PDS and IDPS Guides. Unless specifically stated, the repayment of capital or performance of our products are not guaranteed.

This information is provided for persons in Australia only and is not provided for the use of any person who is in any other country.

A fund manager may close an investment option or we may remove an investment option from the iAccess Investment Options.

Where this occurs, we will provide you with 30 days prior notice to give you the opportunity to select an alternate investment option available from the iAccess Investment Options document. Where we cannot provide you with 30 days prior notice (due to circumstances outside of our control), we will provide you with notice as soon as practicable for you to change your investment instructions. Where we have not received alternative investment instructions from you we will transfer any proceeds from that investment option into your iAccess Cash account.

If the investment option being removed forms part of your investment profile we will notify you to obtain alternative instructions. Events that may cause the removal of an investment option include but are not limited to an:

- investment manager closing the investment option
- investment option closing to new business.

### Identifying investments

The APIR codes used in this document identify the underlying investments which iAccess will purchase on your instruction. The APIR code can assist you in obtaining the PDS for the underlying investment and comparing with other investment menus. Please refer to the underlying fund manager's PDS for further information relating to the underlying investment options.

### Underlying managed investment options

PDSs for underlying managed investment options do not constitute an offer or invitation to subscribe to or buy any of the securities offered by the managers of investment options that have been included from time to time as investments made available by iAccess to members, IDPS investors and potential members of a plan.

In addition, the fund managers of those investment options have not authorised or caused the issue of this document. The fund managers of those investment options, their respective officers, holding companies and trustees do not guarantee the capital invested or the performance of the plans generally.

Neither the performance nor payment of any particular return from, nor any increase in the value of the assets acquired using the investments listed in this Investment Option is guaranteed in any way.

### Changes to the underlying managed investment options

After you become an investor, each time you make additional contributions to a managed investment option you may not have the most recent underlying fund manager PDS or have been notified about material changes or significant events relating to the investment options you have selected. You can access the most up-to-date PDS for the managed investment options you have selected by accessing North Online at [northonline.com.au/iaccess](http://northonline.com.au/iaccess). Please contact the North Service Centre on 1800 667 841 or at [north@amp.com.au](mailto:north@amp.com.au).

Fund managers of the managed investment options may notify us from time to time of material changes or significant events that affect an investment option you have selected. We will notify you of these changes as soon as practical through North Online. We will not be responsible for any delays in notifying you of these changes or events where the delay has been caused by a fund manager. If you wish, you may select a different investment option after you have read the up-to-date information; however, regular fees and charges may apply. If you do not notify us that you wish to select a different investment option contributions will continue to be invested in the existing investment option.

### **Fund manager payments**

NMMT may receive payments of up to 0.55% from fund managers for amounts invested in particular investment options made available in this document (fund manager payments). The fund manager payment received is based on amounts invested with the fund manager and the management costs of these investments.

These payments, and the method of calculation, may change from time to time and are not an additional cost to you.

### **Target Market Demonstration**

The Target Market Determination (TMD) sets out the class of consumers for whom the product, including its key attributes, would likely be consistent with their likely objectives, financial situation and needs. In addition, the TMD outlines the triggers to review the target market and certain other information. The TMD for each investment (where applicable) is available on North Online.
